

**Application No.:** 10/599584  
**Filing Date:** October 18, 2007

### **SUMMARY OF INTERVIEW**

#### Attendees, Date and Type of Interview

The telephone interview was conducted on May 26, 2011 and attended by Examiner Victoria Chen, Jarom Kesler, and Allyson Brown. During the Interview, Applicants' counsel explained that the sponge 116 of Beane (U.S. Pub. No. 2002/0022762) is not a whitening element that can be used for white balancing of the optical instrument as required by Claim 1 because a sponge does not have a consistent reflective surface.

The Examiner noted Applicants' counsel's arguments, and Applicants' counsel indicated they would file a response including arguments consistent with the discussion during the interview.
